

Letter of Recommendation

July 03, 2023

To whom it may concern

I am writing to give my full support to **Stinca Cristian**. I had the pleasure of being his instructor in the laboratory course **Programming Language (Basic Java)**, in the spring semester of 2022-2023. I am extremely impressed with his exceptional performance and dedication. Throughout the semester, Cristian consistently demonstrated outstanding qualities that set him apart from his peers. His calm and composed behavior was truly remarkable. Regardless of the complexity or intensity of the tasks, he remained composed and focused and always maintained a positive attitude. This level-headedness allowed him to navigate through challenges effectively and efficiently, contributing significantly to the overall success of laboratory experiments.

Cristian demonstrated ingenuity in programming. He has been distinguished as a talented student. His raising questions during the lesson indicates a deep understanding and a great eagerness to learn more. He got 5 "which is the highest" in this course.

Cristian's proficiency in Java programming, combined with his calm behavior and problem-solving attitude, make him an invaluable asset to any team or project involving software development. I am confident that he will thrive in any programming-related endeavour and contribute significantly to the success of your institution or organization.

Feel free to contact me if you have any questions about this talented young man.

Sincerely,

Midya Alqaradaghi
